

2026 CONSTRUCTION CAREER DAYS

APRIL 29 | CHESAPEAKE BAYSOX STADIUM

SEPTEMBER 16 | RAVENS STADIUM

OCTOBER 22 | KEYS STADIUM

NOT YOUR AVERAGE CAREER FAIR

This unique event offers 1,000 high school students an opportunity to explore construction careers guided by hundreds of local industry partners and volunteers. Our hands-on approach increases awareness and provides greater access to educational pathways and job opportunities.

Maryland is facing a critical shortage of construction workforce. This event brings the industry together to build a stronger talent pipeline.

YOU CAN MAKE AN IMPACT

We are seeking firms to host exhibits with interactive, hands-on activities showcasing your trade/specialty. Exhibitors should be prepared with an exciting activity or demonstration. Students will engage with booths that align most with their interests.

Our shared goal is to encourage more people to seek careers in this growing industry. We can achieve this by showing them how cool construction is with leaders like YOU!

WHAT DOES IT COST TO HAVE AN EXHIBIT?

\$500. This ensures that the event remains free for students and teachers. MCCEI spends an average of \$150 per student to experience Construction Career Day.

ARE THERE OTHER WAYS TO ENGAGE?

We also rely on volunteers to help guide students and ensure the day runs smoothly.
